#### MAHAULU TAKES JOHN WISE'S PLACE

John Wise's resignation of his position as assistant in the archives bureau, under R. C. Lydecker, takes effect this week. Wise is going to give all his time to the weekly paper being gotten out as a part of the proliquin campaign. Wise is editor of a weekly, of which he has sold 4000 copies a week are being printed at the expense of the liquor dealers, for the purpose of roasting Lydecker and trying to convince the Hawaiian voters that liquor is a good thing for them.

Wise will be succeeded in the archives bureau by Stephen Mahaulu. The latter is a well-known Hawaiian, who has been in the bureau before. He will take Wise's place next Monday.

Yesterday was the quietest day with the police in two weeks. The Sunday holiday declared out of respect for the funeral of the late King Edward was the probable cause of the quietness, but whatever it was, the fact remained that the wagon made but one trip the entire day, and that to Kaunakakai to take down a supposed assassin.

The license commissioners held an executive meeting yesterday and granted permission to Charles Lambert to transfer his license from the truckman section to the premises occupied by the license bureau, King Street and Nuanuanui. Lambert takes the license bureau's business over, and the changeover means one million less in Honolulu.

The territorial grand jury has returned an indictment against Samuel Kipapa, charging him with gross cheat.

There was no session of the stock exchange yesterday. Owing to the closing of banks and general suspension of business out of respect to the late King Edward, whose funeral took place yesterday, it was decided yesterday morning to call off the session.

The half-hour system was commenced shortly before the Russian trouble so as to enable the authorities to call the men in quickly in case of an emergency.

The regular monthly English service of the Kaunakapili church will be held tomorrow morning at eleven o'clock. Rev. W. D. Westervelt will speak. This will be a most interesting and helpful service and a cordial invitation is extended to all. Special singing will be given by the girls from the Industrial School.

Shirakane, the "lessee" of Independence Hall, who dishes out gobs of the Japanese Theopis to a poly-colored audience, was arrested late Thursday night on the plea of selling beer without a license. The beer was bought by a fellow countryman named Fujii and paid for with a marked dollar which may convict the impresario.

The members of the local entertainment committee of Portuguese who have been entertaining the officers and men of the cruiser San Gabriel gave a dance at the Sossile last night at which many of the visitors and local people were present. #### GASOLINE ROW

The von Hamm Young Company reports the sale of another of the handsome Packard Model 18 Runabouts to W. H. Melhery who has now joined the ranks of auto owners.

The Cadillac remains in the front ranks of sellers. Out of the carload of Cadillacs which arrived this week, Marston Campbell, superintendent of public works, received his demitonneau and take great pride in showing it to his friends. Harold Dillingham can not say enough about the smooth-running qualities of his Cadillac touring car which was delivered to him during the week. He is specially enthusiastic over the excess of power shown by his car, which is able to climb any hill on the high gear.

Another Cadillac was shipped to William Searly, superintendent of the Punaue mill, Maui, and a large Model 16 Buick has also been delivered to H. V. Parra of Hilo, who reports that his new roadster will climb the side of a house, if necessary.

Demonstrator Bodge reports from Hawaii an excellent trip in the 6 cylinder tonneau Flyabout. No trouble whatever was encountered in spite of the steep and heavy roads, the Thomas making the trip around the island without even a puncture. This car has been very much admired on Hawaii, and Mr. Bodge reports several excellent prospects of sales, with one sale practically closed.

Mr. Schleuning reports the automobile business is very brisk on the island of Maui. He has just sent in an order for another Buick, and expects to close an order for a Cadillac before the week is out.

The garage and repair department of The von Hamm-Young Company has been exceptionally busy during the week. The two additional experts, who recently arrived from the Coast, came just in time to assist the already large staff of repairmen who are under the supervision of Mr. Shaner during the absence of Mr. Bodge on Hawaii.

The Stevens-Duryea has as many admirers as ever, and The von Hamm-Young Company have just closed the sale of one of these cars to F. J. Lowrey.

The Packard Motor Car Company writes The von Hamm-Young Company that all of the 1910 cars have been sold. The local agents have only one of them left. It is a 7-passenger touring car due to arrive in about ten days. It will probably be sold before it reaches Honolulu.

C. H. Behn is doing little driving on any of his cars on the Honolulu stand and J. W. Santos is now at the wheel of 403, which Behn drove for a long time. Santos was formerly phone man for the stand and is doing good business in the car.

The Associated garage sold a Hudson roadster during the week to Robert Shingle, who is getting a great deal of satisfaction out of it. He makes the trip to Pearl Harbor every day and has need of a reliable car on the Moanua curves.

Sales Manager Odell has sold a Chalmers pony tonneau forty to a Maui purchaser and his demonstration trip through the islands is meeting generally with a great deal of success.

The Hudsons, which the Associated have made popular, are in good demand and Manager Seymour Hall has cabled for more which will be delivered soon, equipped with the latest improvements.

The Chalmers 39 which is another asset of the Associated is also finding favor in the eyes of local motorists and Manager Hall has received two calls for the 1911 model which will soon be on the market.

A great deal of the increased popularity of the Chalmers car is probably due to the excellent work it is doing as the pathfinder of the Glidden Tour, the classic endurance run that covers 2500 miles over the worst and the best roads in America impartially. The E. M. F. car factory also has a car out for the same purpose but a bulletin was recently issued in which the Chalmers was declared the official car.

Business during the week has been fairly brisk. Several cars from the Honolulu stand and the Royal Hawaiian garage have all made the island circuit. Jim Quinn has made it twice and his brother, Tom Quinn has taken the Fairchild party of Kana around. Motoring parties to Halewa are becoming popular and are being indulged in by a number of local people. The first signs of the coming tourist season are evident in the hotels and consequently along gasoline row for the auto is the Hawaiian scenery's chief asset.

"AS YOU LIKE IT" BY  
LIGHT OF THE COMET

This evening at eight o'clock "As You Like It" will be presented on the Oahu College campus by the college dramatic club. This is a hard production for an amateur organization to undertake, and the cast has been under rigid rehearsal for almost five months. The players feel that this evening their friends will see the most beautiful dramatic production ever staged out of doors in this city. The stage setting is very elaborate, while the costumes have cost several hundred dollars. One of the special attractions which the managers of the performance claim for their production is that they aim to give it under the light of Halley's comet, a feature which none of the audience has ever before enjoyed.

Conchita Gilman takes the part of Rosalind this evening. She is supported by Alice Bond, whose clever acting in other performances at Punaue has made her a favorite before the first lights, and who this evening appears as Celia. Alfred Young takes the part of Touchstone, the merry fool. Tickets at Wall Street Company have been selling this week and "As You Like It" is predicted to be a very successful one. It is predicted that there will not be an empty seat this evening.
